Concerns about Online classes

Many Scholars also reported anxiety on ability to do well in online classes and on completing majors that required labs, practicums, etc.

I’m an education major and unable to complete my fieldwork hours because schools have been shut down.

The resources at campus were really helpful in passing my classes, like tutoring. I’m concerned...not having that physical help one on one.

I've never taken an online class and I'm scared I will struggle with the classes and material.

I am struggling to keep up with school from home since I do not have internet access.
